---

Highly skilled and detail-oriented Frontend Web Developer with expertise in HTML, CSS, and JavaScript. Seeking a challenging position at a progressive company to utilize my creativity and technical skills to develop visually appealing and user-friendly websites. Committed to delivering high-quality code and staying updated with the latest industry trends and technologies.

## PROFESSIONAL EXPERIENCE

---

**Senior Systems Engineer** | Infosys Limited

**11/2021 – Present**

**Role:** UI Front End Web Developer - React

**Client:** Leading Pharmaceuticals

### Responsibilities

- Developed and optimized dynamic React forms tailored to pharmaceutical data collection needs, ensuring seamless user interaction and data accuracy.
- Integrated React components with SharePoint, facilitating efficient data exchange and collaboration within the pharmaceutical project environment.
- Implemented robust form validation strategies within React, ensuring accurate and compliant pharmaceutical data submissions.
- Generated comprehensive documentation for React forms, ensuring adherence to pharmaceutical industry standards and facilitating regulatory compliance.

**Role:** UI Front End Web Developer - React

**Client:** Infosys Internal Project

### Responsibilities

- Developed and implemented responsive user interfaces using HTML, CSS, and ReactJS, ensuring a seamless and visually appealing experience for end-users.
- Applied JavaScript programming skills to enhance the interactivity of the application, implementing features that improved user engagement and overall functionality.
- Successfully integrated APIs, enhancing the project's functionality, and enabling seamless communication between the frontend and backend systems.
- Collaborated with MongoDB for efficient data storage and retrieval, implementing database schemas and ensuring data integrity throughout the project lifecycle.
- Utilized Git for version control, ensuring a systematic approach to code management, and collaborating with team members effectively through branching and merging strategies.
- Implemented responsive design principles, ensuring the application's compatibility across various devices and screen sizes for optimal user experience.
- Created comprehensive documentation for codebase, APIs, and system architecture, facilitating efficient knowledge transfer and future project maintenance.

**Role:** Front End Web Developer

**Client:** American Insurance Company

**Responsibilities**

- Developed user interfaces using HTML and CSS, ensuring pixel-perfect layouts and adherence to design specifications.
- Implemented responsive design principles utilizing Bootstrap and Material-UI to create layouts that adapt seamlessly across various devices.
- Leveraged pre-built components and styling utilities from Bootstrap and Material-UI to accelerate development and maintain code consistency.
- Built interactive web elements and user experiences using a combination of HTML, CSS, and JavaScript Optimized website performance by implementing best practices for HTML, CSS, and framework utilization.
- Collaborated with designers and back-end developers to translate design mockups into functional and visually appealing web experiences.
